

# Think clean

New technologies—and some age-old ingredients—are making for better clothing care and household cleanup.

## GREEN GARBAGE

These eco-friendly trash bags are made from recycled plastic and biodegrade in less than two years. (The average garbage bag takes 100 years.) Your local landfill will thank you.

Perf Go Green 13-gallon kitchen trash bags, \$4.80; amazon.com.

## NATURAL CARE

In refreshing scents like aloe and green tea (with no harsh chemicals), these apothecary-style cleaners will help you clean—and breathe—a little easier.

J.R. Watkins cleaners, \$3.99 to \$4.99, select Target stores.

**CONCENTRATED CLEAN** "Less waste, more cleaning power" is the idea behind Arm & Hammer's new plant-based cleaners and packaging. Simply fill the refillable trigger bottle with water and twist the cleaner concentrate into the top.

Arm & Hammer Essentials Refillable Multi-Surface Cleaner and Degreaser, \$2.99 for bottle and cartridge; \$3.99 for refill pack (2 cartridges); 800-926-5222 for stores.

## LAUNDRY LIFESAVER

Cutting-edge fabric-protection technology in Tide's detergent uses specially formulated silicone to keep your clothes from abrading—and fading.

Tide Total Care detergent, \$6.99; available nationwide.
